STATE CLEARINGHOUSE

NEWSLETTER

JULY 1 through 15, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **July 1 through 15, 2000**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Rob Hill (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Federal Notices

Intergovernmental Review Notices (July 1st – 15th, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Federal Energy Regulatory Commission

CONTACT: Fred E. Springer

TELEPHONE: n/a

ADDRESS: Division of Hydropower Administration and Compliance
Federal Energy Regulatory Commission
Washington, D.C. 20426

DESCRIPTION:

On May 9, 2000, Pacific Gas and Electric Company (licensee) filed a request to deviate from the target minimum flow required in Rucker Creek below Blue Lake and Rucker Lake under article 39 of the licensee for the Drum-Spaulding Project. The licensee proposes to construct an earthfill buttress along the downstream side of Blue Lake Dam to address leakage around the outlet pipe and stability of the downstream slope. To accomplish this work in the dry, the licensee must draw down Blue Lake to about 15 feet below the existing outlet. During the drawdown (July to October, 2000), the licensee proposes to maintain the flow below Blue Lake and downstream Rucker Lake at or above the allowable minimum stipulated in article 39. The licensee also proposes to maintain the flow from Blue Lake with a siphon, and maintain the allowable minimum flow during the refilling of Blue Lake, which could take up to three years. The licensee's proposal is deemed adequate to maintain the aquatic and

riparian habitat below Blue Lake for the duration of the project, and is approved.

Federal Energy Regulatory Commission
Washington, D.C. 20426

DESCRIPTION:

On March 29 and April 17, 2000, FPL Energy Marine Hydro LLC (FPL Energy), licensee for the Messalonskee Project file a recreation plan in Kennebec County, Maine, pursuant to articles 409, 410, and 411 of the license. The recreation plan includes the following recreation enhancements for the Rice Rips development: (1) designating the corridor between the Oakland and Rice Rips developments as a greenbelt; (2) a parking area; and (3) carry-in boat access to the Rice Rips impoundment. The recreation plan meets the requirements of articles 409, 410, and 411 and is approved provided that the licensee does the following: (1) identifies the boundary of the greenbelt; (2) files a supplemental recreation boat plan for the Rice Rips carry-in boat access; and (3) re-evaluates the need to develop formal pedestrian access on the east side of the Messalonskee Stream and fishing access for people with disabilities at the Union Gas Development.

888 First Street, NE
Washington, D.C. 20426

DESCRIPTION:

On May 31, 2000, the City of Santa Barbara filed a plan for the Gibraltar Hydroelectric Project. The project consists of 1) a 600-foot-long, 180-foot-high, concrete arch dam; 2) a reservoir with a surface area of 8,500-acre-feet; 3) the 19,650-foot-long Mission Tunnel; 4) a 6,200-foot-long penstock; 5) a powerhouse containing a single generation unit; and 6) appurtenant facilities. The licensee requests surrender of the license, stating that the project is no longer economically viable.

COMMENT BY: August 7, 2000

AGENCY: Bureau of Reclamation

CONTACT: Lynne Silva

TELEPHONE: (559) 487-5807

ADDRESS: South-Central California Area Office
1243 "N" Street
Fresno, CA 93721

DESCRIPTION:

The Bureau of Reclamation has released for public review and comment a draft Environmental Assessment (EA) for the proposed temporary transfer of Settlement Contract water by Vista Verde Farms to common landholdings in the Westlands Water District (WWD). The proposed action is an approval by Reclamation for a series of temporary annual transfers during each of the next 5 years of up to 1,140 acre-feet per year of the Central Valley Project water from the Dudley and Indart Settlement Contract to lands owned by Settlement Contractors within WWD.

AGENCY: Army Corps of Engineers

CONTACT: Peter Fox

TELEPHONE: (415) 977-8454

ADDRESS: Regulatory Branch
333 Market Street
San Francisco, CA 94105-2197

DESCRIPTION:

Olin Jones Sand Company has applied for a ten year Department of the Army permit to dredge sand from three tracts of land on Point Knox Shoal,

near Angel Island in Central San Francisco Bay, Marin and San Francisco Counties, California. The purpose of this dredging is to obtain commercial grade sand for sale, which would then be used for construction projects throughout the Bay area. Based on an analysis of the environmental impacts of the project, the Corps has made a preliminary determination that an Environmental Impact Statement for the project will not be necessary. This Environmental Assessment has not been finalized, and the preliminary determination may be reconsidered if additional information is developed.

AGENCY: U.S. Department of Housing and Urban Development

CONTACT: Kathleen Kane

TELEPHONE: (707) 524-7509

ADDRESS: County of Sonoma Community Development Commission
1440 Guerneville Road
Santa Rosa, CA 95403

DESCRIPTION:

The proposed project involves the construction of the Cloverdale Senior Center located at 311 N. Main Street in Cloverdale. On or about July 27, 2000, the Sonoma County Community Development Commission (SCCDC) will submit a request to the U.S. Department of Housing and Urban Development (HUD) for the release of \$260,000 in community Development Block grant funds. SCCDS has determined that the project will have no significant impact on the human environment; therefore, an Environmental Impact Statement under the National Environmental Policy Act (NEPA) of 1969 is not required.

COMMENT BY: July 26

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

Federal Grant Applications

The notices of federal grant application are not available in electronic form. If you would like to receive a hard copy of these notices by mail, please let us know.

<u>Documents Received on Monday, July 03, 2000</u>			
2000041017	Attalla Ranch EIR Duarte, City of Duarte--Los Angeles The project is a proposed tentative tract map for the creation of 31 lots for the development of 23 single-family detached homes on 23 lots, a public street (on three lots with a total of 1.04 acres), and landscape areas (on 4 lots, or 2.08 acres). The 23 residential lots will be developed on the southerly 6.64 acres of the 33.1 acre project site. In addition, approximately 23.33 acres of the project site including Parcel C (consisting of 19.14 acres) will be dedicated to the City or a non-profit conservancy for the preservation of that portion of the site for open space. Development of the lots will require the movement of approximately 110,000 cubic yards of earth; grading will be balanced on-site (that is, there will be no import or export of graded earth to or from the site).	EIR	08/16/2000
2000072004	Piedmont Skate Park Piedmont, City of Piedmont--Alameda The City of Piedmont proposes to construct a skate park on a portion of the City's Corporation Yard property adjacent to Coaches Playfield, located off Moraga Avenue and Red Rock Road. The skate park would occupy approximately 11,000 square feet. Pedestrian access to the skate park would be via a proposed stairway leading from the Coaches Playfield to a 1,500 square foot plaza just east of, and adjacent to, the skate park.	EIR	08/16/2000
1999041104	San Diego Regional Beach Sand Project San Diego Association of Governments The project proposes to dredge up to 2 million cubic yards of sand from 6 offshore borrow sites and place the material at up to 13 receiver sites in the cities of Oceanside, Carlsbad, Encinitas, Solano Beach, Del Mar, San Diego, and Imperial Beach within San Diego County.	FIN	
1999111054	City of Grover Beach Downtown Project Grover Beach, City of Grover Beach--San Luis Obispo Traffic calming measures including mid-block pedestrian crossing in 900 block of Grand Ave., bulb-outs at all intersections from 8th to 11th Streets along Grand Ave., decorative pavers at intersections from 8th to 11th Streets, new traffic signal at 11th Street, timing of signals at 8th, 9th, 11th, and 13th Streets to achieve vehicle speed of 25 mph, landscaped medians, repaired sidewalks, and upgraded street furniture. 2000071003	<p>L.G. Everist Aggregate Facility Long Beach, Port of Long Beach--Los Angeles</p> <p>Construction of a facility for the import, storage, and distribution of aggregate construction materials, handling up to 3 million tons of aggregate annually. Three to five barges, each containing 10,000 to 12,000 tons of pre-sorted aggregate, would arrive weekly at the facility from local sources and Mexico. The aggregate would be transferred from the barge to the facility conveyor system, then to sorted stockpiles. From the stockpiles, the aggregate would be directly loaded into customer trucks.</p>	NOP	08/01/2000
2000071004	<p>Pulte Homes San Elijo Ridge Project San Marcos, City of San Marcos--San Diego</p> <p>Pulte Homes Corporation is proposing a land subdivision and development of 260 single-family detached homes on approximately 69 acres of rolling, mostly brushcovered and undeveloped land in unincorporated territory within San Diego County. The project site is located east of the San Elijo Ranch project area, adjacent to the southern border of the City of San Marcos. Private residential lots would have a minimum lot size of 4,500 square feet, and homes are currently planned to have an average floor area of 2,500 square feet. The proposed development plan includes realigning Questhaven Road through the site, abandonment of existing road and utility easements, and extension of water, sewer, storm drainage, power and telecommunications infrastructure to the project site from the San Elijo Hills development, currently under construction to the west. Along with 260 lots for single-family residential development, the proposed subdivision map includes three lots to be improved as neighborhood parks and one open space lot for the 7.5 acres that would remain in its current undeveloped condition. This project would not be developed until such time as sufficient street, utilities and public service improvements are completed and available at the project site.</p>	NOP	08/01/2000
2000071010	<p>Hershel Moore Dairy Kern County Planning Department Bakersfield--Kern</p> <p>Development of a modern "freestall" dairy with supporting agricultural crop production. This project site encompasses 1,088 acres under the ownership of the applicant, of which 167 acres would be occupied by dairy facilities. The dairy would house approximately 5,000 milk cows and 4,000 support stock. A net acreage of 816 acres would be under cultivation and available for the disposal of liquid wastewater and solid waste. The site is currently cultivated with row crops and is within the boundaries of Agricultural Preserve 10. Approximately 682 acres of the site are under restrictions of a Williamson Act Land Use Contract. Facilities would include a milk house, two milk parlors, two drip pens, two sprinkler pens, a scale, office, and a possible single-family residence.</p>	NOP	08/03/2000

2000072013	Palm Terrace Apartments Auburn, City of Auburn--Placer The proposed project is the construction of 80 multi-family units in 7 two story buildings. The project includes a community building, pool and tot lots. The project will provide affordable housing to the community.	Neg	07/24/2000
1992101099	TM 5039 RPI 3 Log No. 98-19-013 Sunroad Centrum San Diego County, Department of Planning and Land Use Otay--San Diego The Sunroad Centrum project is substantially the same as the proposed use described in the Specific Plan Project, and no amendment to the Plan is proposed. The Sunroad Centrum project is a subdivision of 250.5 acres into 96 industrial / commercial lots, plus one remainder lot subject to special use regulations under the East Otay Mesa (EOM) Specific Plan. The Otay Water District will provide imported water for the development. The East Otay Mesa Sewer Maintenance District will provide sewer services. The Rural Fire Protection District will provide fire protection and emergency services to 210.5 acres of the total. The remaining 40 acres (in Unit 4) will be conditioned to provide evidence of adequate fire protection and emergency medical services. Access will be as proposed in the EOM Specific Plan. However, off-site improvements to Otay Mesa Road in the City of San Diego will be required as traffic mitigation. In accordance with CEQA, a change in circumstances has arisen since the certification of Specific Plan Environmental Impact Report. The project may result in impacts to endangered San Diego fairy shrimp, which were not discussed in the previous document. The report will also address land use, air quality, transportation, biology, noise, and cultural and paleontological resources.	SBE	08/16/2000

The Otay Water District will provide imported water for the development. The East Otay Mesa Sewer Maintenance District will provide sewer services. The Rural Fire Protection District will provide fire protection and emergency services to 210.5 acres of the total. The remaining 40 acres (in Unit 4) will be conditioned to provide evidence of adequate fire protection and emergency medical services. Access will be as proposed in the EOM Specific Plan. However, off-site improvements to Otay Mesa Road in the City of San Diego will be required as traffic mitigation. In accordance with CEQA, a change in circumstances has arisen since the certification of Specific Plan Environmental Impact Report. The project may result in impacts to endangered San Diego fairy shrimp, which were not discussed in the previous document.	SIR	08/16/2000

2000041033	Proposed Improvements to the Interstate 5 / Valencia Boulevard Interchange Caltrans #7 Santa Clarita--Los Angeles The I-5/Valencia Boulevard Interchange is located on Interstate 5 partially within the City of Santa Clarita and partially within an unincorporated area of Los Angeles County. The proposed project consists of a total replacement and widening of the existing Valencia Boulevard overpass, modification of ramp configurations to improve overall operation of the interchange, and construction of a new southbound direct on-ramp. The new bridge would be designed to span the planned I-5 14-lane cross-section. Total replacement of the existing structure is being considered.	FIN	
2000072022	Golden Pond Master Plan and Mother Lodge Regional Juvenile Facility Tuolumne County Community Development Dept. Sonora--Tuolumne The primary plans for the County-owned properties are on the southwest portion, which is approximately 195+/- acres in size. The majority of that site is composed of the tailings area impoundment and plant site. Both left from the Jamestown Mine. The tailings area is continuing to be closed and reclaimed, and the plant site is essentially reclaimed. The principal use proposed for the plant site is the Mother Lode Juvenile Center. The proposed 23,000 square foot regional juvenile detention facility would house, feed, school, and otherwise service a maximum of 60 juveniles. The other development proposed by the Draft Golden Pond Master Plan at this time includes a motorpool for County vehicles and maintenance facility for County transit buses. This is envisioned as a 6+/- acre facility located on the old SMC plant site where the mill building and maintenance buildings foundations remain, and would serve as a parking and storage lot for County vehicles and buses. A maintenance building would also be constructed of 10,000-20,000 square feet to provide service to the fleet.	NOP	08/07/2000

2000071034	Chapman Heights DS StormDrain Project Yucaipa, City of Yucaipa--San Bernardino The proposed project consists of the extension of the Chapman Heights Road Alignment from the western boundary of the Chapman Heights Planned Development westerly for approximately 800 feet, and construction of the D5 Stormdrain, along this unimproved extension of Chapman Heights road, to discharge into the existing drainage facility on the Yucaipa High School property. Improvements to the existing stormdrain facility on the high school property are also included in this proposed project. The extension of Chapman Heights Road would involve only grading of the road alignment and would not involve any road improvements such as paving or curbs or gutters at this time. The Chapman Heights Road Extension would be fully improved as part of a future road extension project. The D5 Stormdrain is designed to protect Yucaipa High School from flooding impact due to runoff from the Chapman Heights Planned Development.	Neg	07/27/2000
2000072023	Proposed Parking Lot at Bidwell Canyon Campground, Lake Oroville State Recreation Area Water Resources, Department of Oroville--Butte The proposal is to develop and construct an overflow parking lot at the Bidwell area of the Lake Oroville State Recreation Area near the city of Oroville. The proposed parking lot design includes a short asphalt access road into paved parking area designed for 75 to 100 cars. The parking lot will encompass a one-acre site.	Neg	08/07/2000
2000071024	Homeland Felicita Escondido, City of Escondido--San Diego 82-lot tentative subdivision map (79 new homes, 2 open space lots, 1 sewer lift station lot), Annexation from County of SD to Escondido, rezoning from County RR-1 & A-70 to Escondido RE-20 & RE-40 zoning, General Plan Amendment to reclassify Felicita Road from a Collector to Local Collector Road design, Specific Plan of street alignment for Felicita Road, and a Development Agreement. 	threatened the integrity of the entire structure. Total replacement of the existing structure is being considered in order to secure this vital interstate transportation system which connects northern and southern California.		
2000054003	San Joaquin River Riparian Habitat Restoration Program 2000 Pilot Project Friant Water Users Authority Fresno, Mendota--Merced, Madera, Fresno The Friant Water Users Authority proposes to make releases of water from Friant Dam over the period of June 9 through September 30, 2000 as part of reclamation and the SJRHRRP 2000 Pilot Project. The project is to establish sufficient data on seedling establishment and on ground and surface water conditions to refine hydrologic and hydraulic modeling on the San Joaquin River from Friant Dam to Mendota Dam. Water releases would be either 280 cfs and 18,400 af for a maintenance flow or 1,615 cfs and 59,320 af for a supplemental water flow. Water purchases from willing sellers are needed to replace water lost by conveyance or to ground water.	FIN	
2000042018	Natomas Village Center Project (P99-072) Sacramento, City of Sacramento--Sacramento General plan amendment, community plan amendment, rezoning, amendment of PUD Guidelines, and schematic plan for a 25.85 acre parcel to develop regional retail uses.	NOP	08/10/2000
2000071043	GPA/ZC P00-0291 (Riverwalk Commercial Center) Bakersfield, City of Bakersfield--Kern The project involves an amendment to the Land Use Element along with a concurrent zone change for an approximately 40-acre site located in the southwest portion of the City of Bakersfield. The proposed Land Use amendment consists of converting the project site to GC (General Commercial) from OC (Office Commercial). The zone change includes converting the site to regional commercial (C-2) from professional and administrative office (C-O). The project also involves an amendment to the Kern River Plan Element to 6.2 (General Commercial) from 6.25 (Office Commercial) designation.	NOP	08/10/2000
1995112068	Final Time Extension and Revised Grading for TM-23663-1 Riverside, City of Riverside--Riverside The subject of this initial study involves the final time extension for TM-23663-1 and revised grading plan for the four single family residential lots the recorded map will create. Proposed grading includes the cul-de-sac termination of Old Bridge Road and the creation of a rock lined spillway which extends from the end of the cul-de-sac bulb along the northerly property line of proposed Lot 2. Grading will involve the establishment of four residential building pads, ranging from approximately 9,600 to 18,000-square-feet in size.	Neg	08/10/2000
